Subject: Endorsement of the IFMSA Student Exchange Program

Re: International Federation of Medical Students' Associations student exchange programmes

Geneva, 17 January 2018

Dear Carlos, Dear Katerina,

The World Psychiatric Association (WPA), spanning across 118 different countries and 140 member organizations, the largest in its field, aims to increase knowledge and skills necessary for work in the field of mental health and the care for the mentally ill. Among its objectives, WPA seeks to promote the development of the highest quality standards in psychiatric care, teaching and research, as well as the observance of such standards.

This letter serves as the WPA's recognition that the student exchange programs managed by the International Federation of Medical Students' Associations (IFMSA) contribute significantly to students' education of Psychiatry and Global Health.

With kind regards to IFMSA.

Your sincerely,

Professor Helen Herrman AO
WPA President
